

# Albion Caulking Loader Purchase Form

In order to provide the correct dispensing solution for our customers, Albion asks that our customers provide general information on how their material is packaged. Please review the following and fill in the information needed. An Albion service tech will review the information and provide the appropriate solution. Albion at no time will be held responsible for incorrect information leading to the wrong choice of loader. If more information is needed on how the form should be filled in or if you have any other questions, please call or e-mail a service tech at the numbers below.

## Information requested

What size is the pail, 2 gallon, 5 gallon or other? \_\_\_\_\_

Is the material packaged in a metal or plastic pail? \_\_\_\_\_

Does the pail have a straight side wall or tapered wall? \_\_\_\_\_

Check this by measuring the top and bottom diameters. If the bottom is smaller, the pail is consider to be tapered.

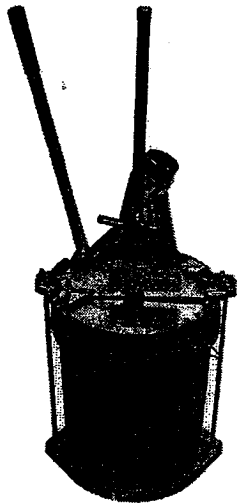

What is the inside diameter of the top of the pail? \_\_\_\_\_

Does the material manufacturer consider their product to be of viscous type? \_\_\_\_\_

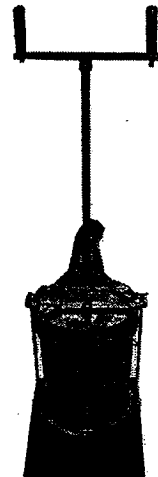

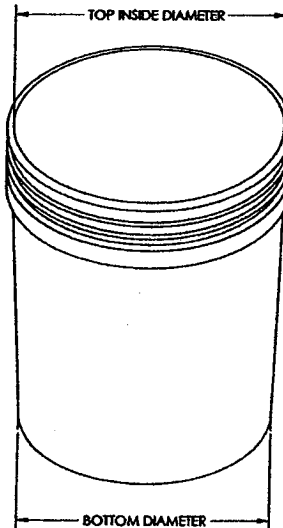

\_\_\_\_\_ customer signature

\_\_\_\_\_ date

Albion's recommendation based on the information provided above. \_\_\_\_\_
