

Ink Cartridge Dispensing Tools

bulletin 362

For use with the Ritter 2-kg ink cartridge, 3-15/16" dia. x 13" long.

More practical, cleaner, and more reliable than conventional ink cans.

Manual Dispensing

- ✓ **Two operating speeds** - high power/low displacement or low power/high displacement
- ✓ **One hand operation** - develops up to 1100lbs of thrust to dispense high viscosity materials.
- ✓ **Specialty designed recoil** - easy to release, even under extreme pressure.
- ✓ **Reliable** - precision machined, wear-resistant components built for severe use.

1046-1U

18V Cordless Battery Tool

- ✓ **Powerful** - 950lbf with no oscillation under load
- ✓ **Advanced Battery**
 - 18V Lithium-Ion for fade-free power
 - Fast, 30-minute charge
- ✓ **Total Control**
 - Variable speed trigger
 - Speed limit dial
- ✓ **No Drip** - Gears disengage instantly when trigger is released
