

Job Description:

Albion is internationally recognized as a leader in the field of hand-held dispensing technologies and we need the right candidate to help keep us there. We view each of our employees as an essential part of our mission to stay on top of the industry. As a member of the Engineering team, you will be responsible for new product development and design, along with supporting Albion existing product lines. Additional responsibilities include communications and support of customers, vendors, and overseas partners. We offer competitive wages and excellent health benefits along with 401K profit sharing.

About us:

Albion is a third-generation company with substantial USA quality control and manufacturing capabilities. Recognized as a leader in the field of dispensing tools for the application of sealants and adhesives, the company also has experience building mechanical devices for the food, chemical, pharmaceutical, and the craft / hobby industries. You'll get to use your talents to support multiple industries with innovative, high quality hand tools and accessories for the most demanding applications.

Role and Responsibilities:

- Have an active role in the creation and maintenance of Engineering documents including:
 - Product design, prototyping, drawings and specifications
 - Bill of Materials and routings for manufacturing
 - Operating and assembly instructions for products
- Ensure high quality by performing product evaluations to resolve manufacturing/design issues and recommend improvements

Qualifications and Experience

- Bachelors or Assoc. Degree in Mechanical Engineering / Technology field
- Hands-on individual, capable of working in office and with shop staff
- Proficient with MS Office programs and familiarity with SolidWorks
- Strong verbal and written communication skills.
- Detail and goal oriented, innovative, inquisitive, and possessing strong problem-solving skills
- Ability to manage multiple projects

Interested individuals should submit their resume to Joseph Hanni joeh@albioneng.com
