

Introducing B-Line Bulk Guns

The B-Line bulk series incorporates Albion's bulk gun technology with state-of-the-art engineering.

Compare these B-Line bulk features

adjustment screw

double gripping plates

replaceable piston cups
leather pistons
steel barrel

ladder hook pull accessories available

Model 310-1 shown

with any other gun:

- **Longer Dispensing Tool Life**— Albion's adjustment screw technology means increased life of the gun—as the tool wears you can adjust the screw to remove the wasted motion
- **Increased Durability**— Albion's legendary double gripping plates, steel trigger, and steel barrel means increased durability; if it's dropped it won't break or dent
- **User Friendly**— Swivel handle rotates, allowing for easy change of direction and uninterrupted flow
- **Leather Piston Cups**— Albion's twin single-cup system allows individual piston cup replacement; synthetic pistons available for specific applications
- **Customizable**— Accepts all Albion bulk and sausage gun accessories

Don't settle for anything less than the best. For more information, visit us at our website at www.albioneng.com. Our full line of products come with an Albion warranty and our commitment to professional quality tools.

B12[®]B20

B26[®]B20

B12[®] DRIVE— features 12:1 thrust ratio and high performance drive for low to medium viscosity materials

B12[®]B20— 1½ pint capacity (shown above)
B12[®]B30— 1 quart capacity

B26[®] DRIVE— features 26:1 thrust ratio for high viscosity materials and the demands of cold weather use

B26[®]B20— 1½ pint capacity (shown above)
B26[®]B30— 1 quart capacity

Three orange cones (part no. 235-3) are included with all models

Albion Engineering—

Albion Engineering is a third-generation company internationally recognized as a leader in the field of handheld dispensing technologies. Albion supports multiple industries with innovative, high-quality dispensing tools and accessories for the most demanding applications. More information on our products and services is available on our website or by requesting the latest issue of our Catalog and Handbook 333.
