

Dispensing Tools Featuring Steel Barrels with Teflon® Industrial Coating

Only Albion combines the durability of a dent resistant barrel with the easy-to-clean non-stick surface of genuine Teflon® Industrial Coating.

Barrels Feature:

- **Teflon® Industrial Coating inside-and-out**— Abrasion resistant interior surface and durable exterior finish
- **Easier Dispensing**— Teflon® Industrial coating allows the pistons to move smoother and more freely which reduces trigger-hand fatigue and wrist strain
- **Faster Cleanup**— Residual material left after dispensing easily wipes away which results in faster cleanup times
