

Professional Sealant Tools

Albion has caulk spatulas for every size joint.

Classic 258 Series

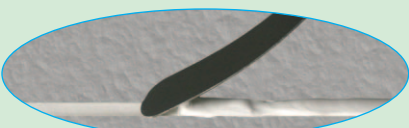

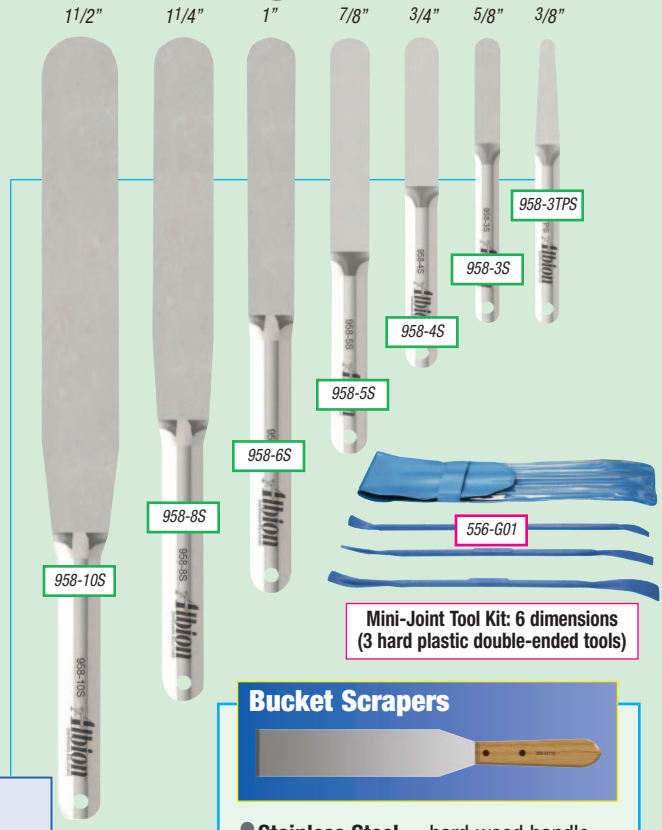

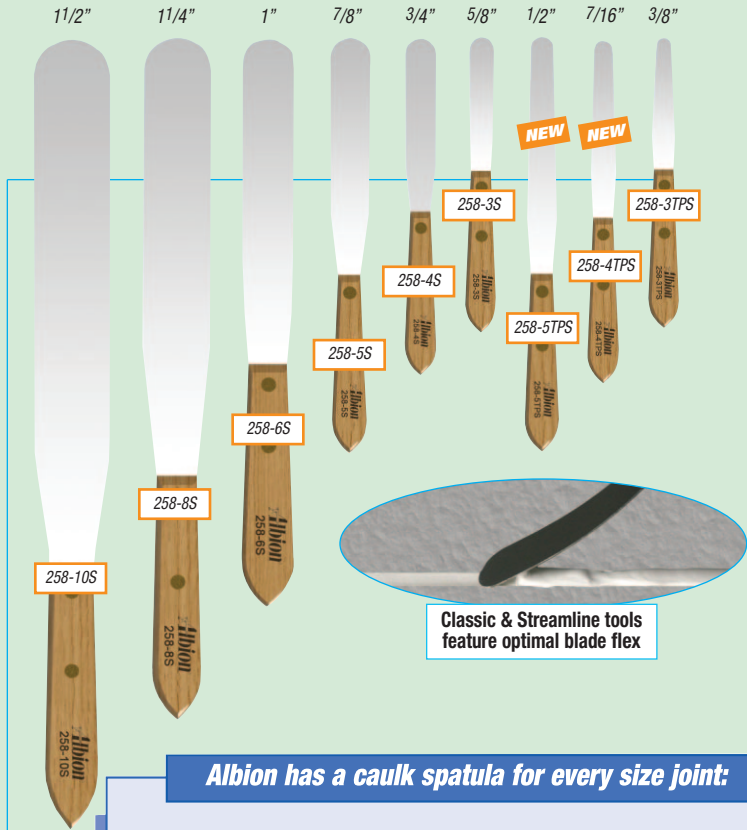

- **Original hardwood handle**— well known to the professional
- **9 piece series**— tip widths from 3/8" to 1 1/2"
- **Rounded tips for standard applications**
- **Stainless steel blade**— ground and polished for optimal flex & minimum drag for perfectly finished joint
- **Easy clean-up**— wood handle and stainless steel blade unaffected by solvents

Streamline 958 Series

- **Stainless steel blade**— same grind and polished finish as 258 Series
- **7 piece series**— tip widths from 3/8" to 1 1/2"
- **Economical beveled handle with hanger hole**
- **Tools available as 7 piece spatula set**
- **Easy clean-up**— stainless steel blade unaffected by solvents

Streamline 958 Series spatula set

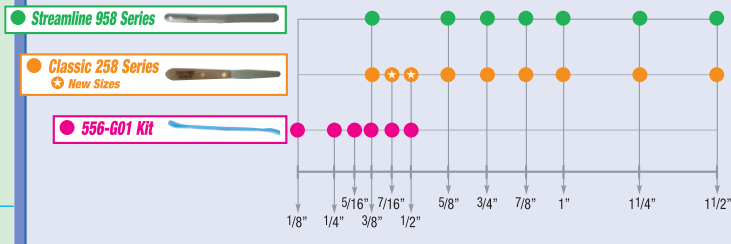

Classic & Streamline tools feature optimal blade flex

Mini-Joint Tool Kit: 6 dimensions (3 hard plastic double-ended tools)

Albion has a caulk spatula for every size joint:

Bucket Scrapers

- **Stainless Steel**— hard wood handle
- **Square tipped**— ground knife edge scrapes material from container sidewalls
- **Offset handle**— avoids scraped knuckles

258-33715 2" x 5" blade
 258-33718 2" x 8" blade
 258-33719 2 1/2" x 8" blade
