

Albion delivers the power when you need it for:

- Cold Polyurethanes
 - Sealants with aggregates
 - Extension nozzles
- Terpolymers/Tripolymers
 - Firestopping
 - Automotive urethanes
- Polysulfides
 - Butyl rubber sealants
 - Two component cartridges

A standard dispensing gun generates up to **375 lbs of force**. For high viscosity materials, cold weather and long nozzle dispensing, Albion offers high-thrust cordless, air, and manual guns.

Battery Powered E-Drive

950 lbs force

- Ergonomic— reduces hand fatigue and wrist strain versus manual guns
- Power efficient— dispenses over 185 10oz latex cartridges on one charge
- Heavy duty— all-metal gear box develops 950 lbs of force
- High productivity— maximum speed of 23 inches per minute means the job gets done fast

Other popular cordless models: 405-15E14 (625 lbs only) - quart cartridge, DL-59-T13E - 1 quart bulk, 103-15E - 80oz bulk, 770-series - 30oz bulk & cartridge

B-Line B26 Drive

900 lbs force

- Adjustable wear-compensation device— no loss in trigger motion
- Double gripping-plate and steel trigger for increased durability
- 26:1 thrust ratio

Other popular B26 Drive models: B26B20 - 1 1/2 pint bulk capacity, B26B30 - 1 quart bulk capacity, B26S20 - 20oz sausage (also see our **B18 drive** guns - **700 lbs force**)

Ultra Drive

1,100 lbs force

- Easy thumb release even under extreme pressure
- Two operation speeds— quick change to second speed for longer stroke using less power
- Built to dispense the highest viscosity materials

Other popular Ultra models: UL-45-T13 - 1 1/2 pint bulk capacity, UL-59-T13 - 1 quart bulk capacity

Plus Drive

700 lbs force

- Triple gripping plates for dependable dispensing
- Double-grip recoil mechanism— handles heavier loads

Other popular Plus models: 405-15P quart cartridge, DL-59-T13P - 1 quart bulk capacity

Pneumatic powered guns are also available for cartridge, sausage, bulk and multi-component cartridge applications. Visit our website or see our Handbook & Catalog 333 for more information.
