

Multi-Component Models

TRIGGER-ACTUATED HI-THRUST

Operated easily with one hand.

These drives are designed to develop the added thrust needed to pump two-component materials through a static mixer.

Utility Drive

New ULTRA Models Patent Pending with C1100 Hi-Thrust Drive

Two operating speeds.

High power/low displacement or low power/high displacement. Quick change to second speed for longer stroke, less power.

FEATURES:

- ✓ Develops up to 1100 lbs of thrust, equivalent to 3½" dia air-powered models at 120 psi
- ✓ Specially designed recoil for easy release under extreme pressure
- ✓ Epoxy-coated handle and carriage for comfort and corrosion resistance.
- ✓ Dent-resistant rod... hardened, ground and polished
- ✓ Precision machined, wear-resistant parts for reliable Hi-Thrust dispensing
- ✓ Trigger removes easily to clean and relocate for different thrust and speed

New SDLplus Models with C700 Hi-Thrust Drive

Almost **twice** the thrust of our standard Special Deluxe drive with minimal added cost.

FEATURES:

- ✓ Develops up to 700 lbs of thrust, equivalent to 2¾" dia air-powered models at 120 psi
- ✓ Strengthened double-grip recoil mechanism to handle heavier loads
- ✓ Reinforced welded construction, heavy gauge steel, smooth durable finish
- ✓ Epoxy-coated handle with zinc plated body for comfort and corrosion resistance
- ✓ Heavy-duty ⅝" square smooth piston rod with T-pull

New UTILITYplus with C600 Hi-Thrust Drive

Almost **twice** the thrust of our standard Utility Drive with 20% shorter stroke and minimal added cost.

FEATURES:

- ✓ Develops up to 600 lbs of thrust
- ✓ ⅝" round smooth piston rod
- ✓ Heavy gauge steel and zinc plating
- ✓ Durable coil springs
- ✓ ALBION QUALITY

STANDARD UTILITY DRIVE:

- ✓ Same quality construction and features as our UTILITY plus
- ✓ Develops up to 350 lbs of thrust
- ✓ Durable tool, built for moderate use

AIR-POWERED DRIVE

530-5
PATENTED

Full cartridge support to prevent "wishboning"

Maximum ease of operation

550-2
PATENTED

Lightweight carriageless design for one-piece flanged dual cartridges

Albion's Air-Powered Multi-Component Models provide uniform coverage, perfect even flow, and maximum ease of operation. Drop-in carriage loads in seconds.

FEATURES:

- ✓ Patented double-action air-system features isolated air chamber to prevent leakage into materials
- ✓ Power forward and reverse
- ✓ Corrosion resistant aluminum air cylinder and stainless steel rods for smooth operation
- ✓ Internal air lines to prevent snags
- ✓ Pressure relief valve
- ✓ Petcock for draining condensation
- ✓ Comfort contoured handle and trigger guard
- ✓ Requires a minimum amount of air, and can be operated from a small portable tank

BALL-SCREW DRIVE

Operates easily without auxiliary power.

Albion's patented Ball-Screw Drive provides the thrust of an air-drive with the portability of a manual tool. Recommended for the most viscous materials.

FEATURES:

- ✓ Frictionless ball-screw/ ball-bearing drive
- ✓ Drop-in carriage loads in seconds
- ✓ Pressure locking system with instant trigger release
- ✓ Shear pin design prevents over-pressurization
