

Handles 10:1 twin cartridge and standard 10 oz cartridge applications.

Introducing Albion's Multi-Component Dispenser for 300/30ml and Standard 10oz Cartridges.

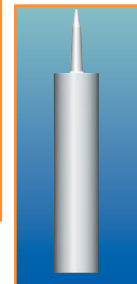

The Albion B18 Line competes with the best from around the world by combining state-of-the-art engineering and quality control

Compare the "B18™" features with any other gun:

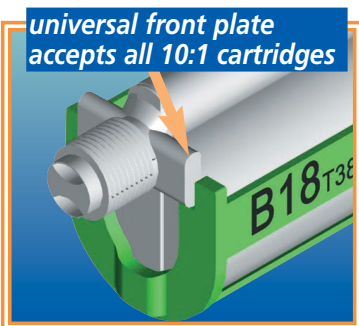

- **18:1 thrust ratio**— Makes dispensing the thickest material easier.
- **Increased durability**— Albion's legendary double gripping plates and steel trigger means increased durability; if it's dropped it won't break.
- **More user friendly**— Albion's unique design handles both 10:1 and standard 10 oz cartridges.

- **Longer dispensing tool life**— Chemically resistant epoxy coated carriage for corrosion resistance and snap on side covers prevent unwanted cartridge material from contacting the drive mechanism.

B18T380I™ accepts 300/30ml (10:1) and standard 10 oz cartridges

- **More user friendly**— Albion's universal front plate design allows all 10:1 and 10 oz cartridges to be used.
- **Increased efficiency**— Albion's improved pump efficiency means you get the job done quicker. Designed so that it takes fewer pumps to empty a cartridge, you get more efficient use of hand motion.

Don't settle for anything less than the best. For more information, visit our website at www.albioneng.com. Our full line of products come with an Albion warranty and our commitment to professional quality tools.

Albion Engineering—

A third-generation company internationally recognized as a leader in the field of dispensing technologies. We support multiple industries with innovative High-End Dispensing Tools and Accessories for the most demanding professional and industrial applications.
